什么是社会劳工整合项目（SLCP）？

社会劳工整合项目(Social and Labor Convergence Project)，以下简称SLCP，是一个多利益相关方的倡议。签约方现已超过200个，包含制造商，品牌、零销商，代理组织，国家政府，标准组织，行业协会，审核机构、咨询公司和政府间组织（观察员）等。

SLCP通过实施可取代当前所有审核方法的CAF(融合评估框架)，来收集社会与劳工数据。旨在减少社会与劳工审核的数量，以改善全球供应链上的社会与劳工条件。这将使工厂先前用在社会责任审核的资源，重新分配到改善社会与劳工条件上。同时增加社会与劳工数据更具可比较性的机会，更有助于改善计划的形成和执行。

SLCP 提供更综合性的工具和解决方案，验证主要覆盖年龄、工作时间、工资、健康与安全、工厂管理体系及其他更多劳工项目。

What is SLCP?

SLCP(Social and Labor Convergence Project), hereinafter referred to as SLCP, is a multi-stakeholder. There are more than 200 signatories, including manufacturers, brands/retailers, agents, national governments, standard holders, industry associations, auditing firms/service providers/consultancies and intergovernmental organizations (observers).

By implementing a Converged Assessment Framework (CAF) to collect social and labor data that can replace all current audit methodologies. SLCP aims to improve social and labor conditions in global supply chains by reducing the number of social and labor audits in facilities. The program would not only redirect facility resources previously spent on compliance audits to the improvement of social and labor conditions but also increase the opportunity for greater comparability of social and labor data to better formulate and execute improvement programs.

SLCP provides comprehensive tool as the solution which covers the labor topics such as age, working hours, wages, health & safety, facility management system and more.
